Copy.

To the Chairman and Members of the
Eastwood Urban District
Council.

Gentlemen

The following is my report for the year 1897.

Population:- The population of the district in 1891 was 4363. Estimated to be 4949 in the middle of 1897.

Births:- 171 births were registered during the year, 88 male and 83 female - giving a birth-rate of 34·5 per 1000.

Deaths:- 76 deaths were registered during the year, giving a natural increase of population of 95. The death-rate for the year was 15.35 per 1000.

Among the deaths, 23 were in infants under 1 year - the death-rate being 134·5. 36 were in children under 5 years, and 10 in old people over 65 years. There were 2 deaths from Scarlet Fever, 1 from Typhoid Fever and 4 from Measles.

91 cases of Infectious diseases, in 67 families, were reported to me during the year, as follows:-

72 Scarlet Fever.
5 Typhoid Fever.
8 Diphtheria.
6 Erysipelas.

I examined the houses infected with these diseases and in each case sent printed directions for the prevention of their spreading.

Owing to complaints from the houses situated on the Canal side, near the Pumping Station, and infected with Scarlet Fever and Diphtheria, I visited the district several times during the month of November. I found the means by which the

surface water was removed were insufficient, the water collecting in several places, becoming stagnant and constituting nuisances. Such a condition is far from satisfactory, but the Sanitary Inspector and myself are doing our best to remedy it.

The infectious diseases in this part of the district were imported from Langley Mill.

The slight epidemic of Scarlet Fever which occurred during the months of August and September last now subsided, and the houses disinfected

The health of the parish is remarkably good. There are still many connections not yet made to the sewerage scheme recently carried out in the district, and it is to be hoped that your surveyor will endeavour to get them done before the end of the year.

I have the honour to be Gentlemen
Your obedient servant
D. M. Forbes
Medical Officer of Health.

Eastwood,
1st Jany 1898.
